Compliment from a Driver on the Road

On October 2nd, safety received a call from a motorist on the road. She stated that she had a long drive to Colorado ahead, and that she had been following one of our drivers for 2+ hours.

This driver was Bryan Rutledge. She mentioned that it was very windy, and she doesn't always feel comfortable driving next to semi-trucks, however, Bryan kept it steady despite the wind, used his signals, drove at a safe speed, and overall was a very good driver. She said that she hoped she could follow him as long as possible.

We assured her that we would get the message to Bryan, as well as others in the company.

An Inspiration to All: Thornton Dixon

On October 2nd, Thornton Dixon and his wife Juanetta left out of the house heading to Asheville, NC to help a driver of ours out. Steve Bohanon unfortunately got caught in the aftermath of Hurricane Helene at a truck stop outside Asheville. As many of you know, the area was hit hard by flooding and lost electricity and internet service, as well as most of the telephone lines getting severed in the area.

On Monday and Tuesday in a coordinated effort with Steve we searched the area for ways to fuel the tractor so we could get Steve out of the area. Due to the lack of electricity and internet at the TA Travel Center at exit 37 in Chandler, NC we could not get Steve out of that location.

Thankfully, by the time Wednesday rolled around, Thornton, who we have been in contact with daily, had gotten his house organized and was willing and able to make the journey for us. Thornton purchased some fuel cans along the way and delivered 30 gallons of fuel to Steve so we could get him to Spartanburg to fuel.

EVO Transportation Announces the Acquisition of West Side Transport

Transaction creates a diversified, national truckload carrier and brokerage focused on high end service to some of the nation's largest shippers and a platform poised for growth.

West Side Transport will continue to operate as its own autonomous division under Ron Joseph

Cedar Rapids, IA | September 23, 2024

EVO Transportation & Energy Services ("EVO"), a dedicated truckload carrier and top ground transportation supplier to the United States Postal Service ("USPS") today announced the acquisition of West Side Transport, a leading Midwest based truckload carrier and brokerage with a diversified portfolio of Fortune 500 customers.

Operating through its two separate brands - EVO and West Side Transport - the combined company will continue to deliver high quality service to all of its customers while also capitalizing on opportunities to accelerate growth and leveraging its combined geographic footprint, resources and scale to further improve service offerings and capabilities. With this transaction, EVO transitions from being a predominantly USPS-focused carrier to a diversified transportation supplier with a broad customer mix, in keeping with the USPS's supplier preferences and requirements.

From a single tractor and trailer more than 50 years ago, Don Vogt built West Side Transport into a world class operation that today includes a general commodities truckload carrier comprised of 550 trucks, 2,300 trailers and 700 employees as well as a logistics and warehousing business that spans the Midwest and beyond. In addition to West Side's corporate headquarters and primary operations center in Cedar Rapids, IA recently opened in 2020, the company also has terminals in Circle Pines, MN, Glenwood, IL, Indianapolis, IN, Canton, MI, Columbus, OH and Chattanooga, TN.

West Side Transport will continue to operate as its own fully autonomous division. Day-to-day operations, personnel, management and services to customers are expected to remain unchanged. Ron Joseph has been promoted from Chief Operating Officer to President of West Side Transport and will continue to manage all aspects of the business. Don Vogt will serve as a Board observer providing strategic advice and services to the new, combined company.

Don Vogt, stated: "In EVO Transportation, West Side Transport has found a partner that helps expand its geographic footprint, as well as bringing efficiencies of scale helpful in a very competitive industry."

Ron Joseph, President of West Side Transport commented: "We are excited about partnering with EVO and believe that our complementary strengths will help both companies grow and prosper."

Michael Bayles, CEO of EVO Transportation remarked: "From the moment we first set foot in Cedar Rapids, EVO was beyond excited about West Side Transport. Don Vogt dedicated his life to building an absolute best-in-class operation and we were drawn immediately to the quality staff, drivers, equipment and facilities. We are very excited about West Side joining the EVO family and look forward to honoring Don's legacy."

WhiteHawk Capital Partners and EVO's largest shareholder, Antara Capital provided debt and equity financing for the transaction

Brad Huge, Managing Director at WhiteHawk said: "West Side is an impressive business that has differentiated itself by providing high-touch mission-critical services to its customer base. WhiteHawk was pleased to provide a creative and flexible financing solution to support EVO's acquisition of West Side. We look forward to working alongside the EVO and West Side management teams."

FINNEA Group acted as a financial advisor and Simmons Perrine Moyer Bergman PLC as legal advisor to Vogt and West Side Transport on the transaction. Steven Moore provided transportation M&A consulting services and Paul Hastings LLP acted as legal advisor to EVO.

About West Side Transport

West Side Transport is an asset-based trucking company specializing in short-haul van truckloads throughout the Midwest and beyond. Led by Don Vogt, West Side entered the trucking industry in 1980 to provide freight services in support of its salvage operation and quickly grew to become a premier player in the transportation industry. West Side Transport's operations have continued to grow with the support of its long-tenured leadership team and dedicated staff with deep industry experience and currently operates 550 power units and a growing brokerage business. West Side is actively hiring drivers in support of several new business opportunities.

For more information, please visit www.westsidetransport.com

About EVO

EVO Transportation & Energy Services is a truckload carrier and a leading ground transportation supplier to the United States Postal Service. With a fleet of over 900 power units and a national network, EVO's core focus is centered around dedicated, high on-time service and best-in-class safety performance. An acquisition roll-up, EVO is comprised of some of the longest tenured and most respected legacy carrier brands in the USPS supplier space. EVO is actively hiring drivers in support of a number of new contract opportunities.

Drivers of the Month

July

Aaron Lamont Sanders - ILH

Since Aaron's hire date he has never called off, never complained about daily work assignments, and always brings to our attention anything he notices that could present issues. He has never been late to work and always utilizes his time clock to the best of his ability. Aaron communicates throughout the day by sending in all macros. He always completes his load assignments and has shown consistent hard work, dedication and commitment.

David Mullen - OHH

David started out as a night-time home daily driver. He has since transitioned to Ohio flex. David has great communication skills and can go about his day with little to no direction. He is accepting of last-minute changes and added loads.

Keith Walker - MIH

Keith has been with us since October of 2023. Since he has been with us, he has been very flexible and has never refused a load. With that being said, he has saved us countless times from disappointing our dedicated customers. Without being asked, Keith is also always out in the yard coaching other drivers and giving them helpful tips and tricks to perform a thorough pre/post trip.

Frank Masciopinto - MNH

Frank is a great asset to the MNH team. He goes above and beyond to ensure loads are covered and helps out regularly to cover missed loads, recover trailers, and do lot inventory checks. He has positive relationships with customers and other team members and has a fantastic sense of humor. Frank has frequently replanned to cover loads from other drivers as well.

Drivers of the Month

August

Walter Riddle - ILH

Walter has stood out since his first week. He does all the little things right. Walter will do whatever is asked while always staying positive. He volunteers to work on all his off days, has helped recover drivers and loads, and we give him special projects. Walter is our trainer for new hires and often takes time to show drivers safety issues/concerns as well as general trucking knowledge. Walter is a joy to work with and drivers like him are a big part of the positive culture we try and have here.

Robert Caudill - OHH

Robert is a great asset to the West Side team! He is very punctual and has great communication in every situation. He comes in with a great attitude daily and has received compliments from many of West Side's daily customers.

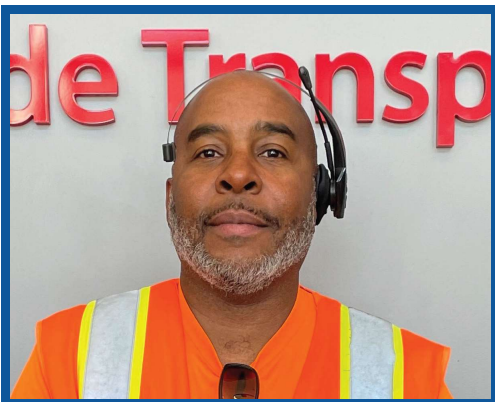

Cedric Davis - MIH

Cedric has been a true asset to the team since he was hired back in May of 2023. He recently gave up his dedicated start time to give work to a driver out of our Dayton yard during a slower month. Keith was placed at a later start time that was harder to cover, and he really saved us there. Not only has he proven himself repeatedly to be a team player, but he is also constantly participating in driver events to create a fun and exciting work culture!

Paul Mcgee - IAH

Paul is very efficient and completes his loads in a timely manner. Paul has not only assisted another driver on how to use the General Mills tablet, he also has taken initiative and showed him where the different locations were so the driver would be fully prepared to efficiently help with the shuttles. It is a pleasure to work with Paul and we appreciate all he does!

Drivers of the Month

September

Lorenzo Woodard - ILA

Lorenzo does all the things you want from a driver and beyond! He is always current with his macros and paperwork. He also helps monitor the maintenance on his tractor. He has terrific attendance and is a pleasure to work with, showing a positive outlook. He truly is a joy to be around. During September, Lorenzo came in every weekend just to help monitor the maintenance on the trucks.

Yumek Carter - OHH

Yumek is a great asset to our West Side team! He is very punctual and has great communication in every situation. He comes in with a great attitude daily, and has received compliments from many of West Side's daily customers.

Andre Kincannon - MIH

Andre has been with us since April of 2023. Since then, he has proven to be one of the most reliable and flexible drivers we have in our fleet. When his lane is down, he is the first to volunteer to jump on any open freight we have - no questions asked. Along with his booming work ethic, he has proven to be quite the corn hole player at our annual Burgers and Bags event. He is truly a team player!

Chuck Krogstad - MNH

Chuck is always going above and beyond for our team and to service our customers. He catches issues with trailers and repairs that are needed, as well as DOT inspections that are late. He makes the arrangements to get the equipment to a shop to get it fixed and back on the road as quickly as possible. Chuck helps us cover missed freight, and helps with special projects to get caught up when there is an abundance of freight.

COMMERCIAL TIRE SAFETY TIPS

TIRE INSPECTION

Examine your tires **EVERY DAY** for:

- Irregular treadwear
- Cracking
- Bulges
- Inadequate tread depth
- Cuts
- Foreign objects
- Other Damage

and bring it to the attention of your mechanic.

INFLATION PRESSURE

- **GAUGE** your tires **COLD** before each trip
- **Adjust** as necessary

Improper inflation pressure affects tire wear and fuel efficiency.

RIMS

ONLY use approved tire/rim combinations of the appropriate width and diameter.

Mismatched tire and rim components may explode and cause serious injury or death.

EXTREME LOADING

Overloading or **underinflation** causes excessive heat build-up and internal structural damage that can lead to a tire failure.

SPEED

DO NOT exceed your tires' speed rating – Doing so will damage your tires and lead to premature failure.

Examples of irregular treadwear:

Overinflated

Underinflated

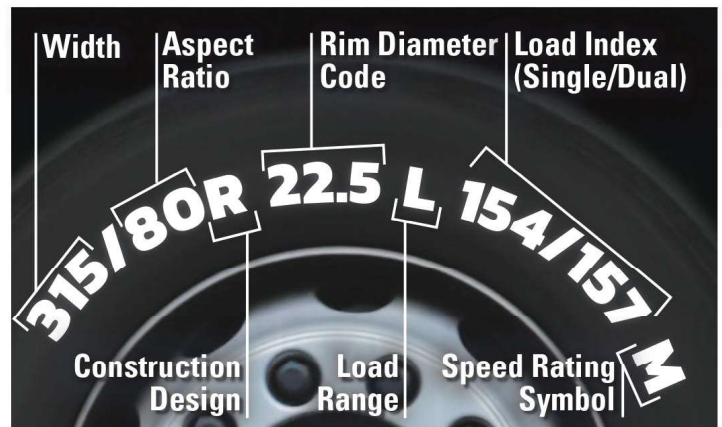

Suitable Tire - Rim Choice

TIRE SIZE	RIM SIZE	KPA	COLD	PSI
315/80R22.5L	22.5X9.00	690		100
295/75R22.5F	22.5X8.25	620		90
295/75R22.5F	22.5X8.25	620		90

Find the correct inflation pressure for your vehicle – on the tire placard, certification label, or in the service manual – or contact your tire supplier.

Speed Rating

Code	MPH	km/h	Code	MPH	km/h
F	50	80	L	75	120
G	56	90	M	81	130
J	62	100	N	87	140
K	68	110	P	94	150

Operations: IMTA Awards

Ben Goyette
Operations Manager

The Iowa Motor Truck Association (IMTA) held their annual Dinner & Awards Gala Thursday the 5th of September. We nominated individuals in several award categories that we'd like to recognize for their outstanding performance here at West Side Transport. Please join me in congratulating Ryan Armstrong, Michael Stokes, Jason Pavelchik, and Ed Yoder, for being recognized amongst their peers as individuals who stand out for going above and beyond, always putting safety in the forefront of everything they do and are fantastic examples of others in the company and industry to model themselves after.

Dispatcher Professional: Ryan Armstrong (Cedar Rapids Terminal)

Maintenance Technician: Michael Stokes (Cedar Rapids Shop)

Outstanding Professional Driver: Jason Pavelchik (Regional Driver)

Master Truck Driver: Ed Yoder (Regional Driver)

The highlight of the evening for West Side was when Jason Pavelchik was announced as the IMTA's 2024 Professional Driver of the Year!

Jason was compared to 11 other drivers for this award, all of whom were exceptional in their own right. However, Jason was selected because he exemplifies the highest standards of professionalism, safety, and dedication in the trucking industry. He's been a cornerstone of West Side Transport as a driver and Driver Mentor for the last 10 years, all while maintaining a flawless safety record and earning the Gold Service Award each year for delivering 100% of his loads on time.

Please join me in congratulating Jason Pavelchik for being selected as the 2024 IMTA Outstanding Professional Driver!
